Summary

The BlackJack MX Mini server is NDAA/TAA-compliant and provides a reliable, economical solution for monitoring and recording multiple IP cameras of any resolution at up to 120Mbps throughput. These servers are ideal for single-location applications but can also be integrated into a larger corporate remote management solution as part of the DW Spectrum platform. The servers come equipped with 2TB of recording storage, are preloaded with DW Spectrum, and include a 5-year limited warranty.

Features

- Supports all ONVIF conformant IP cameras
- 2TB internal storage
- Record and manage single- and multi-sensor IP cameras of any resolution up to 120Mbps throughput.
 - * Stitched images will cause significant performance degrade.
- Local monitoring ports for local setup and configuration.
- Dual network ports
- Windows 11 OS
- OS on separate SSD reduces the risk of data corruption.
- Hosting DW Spectrum for setup, configuration, and recording.
- One-time recording license charge, fully transferable between cameras and encoders.
- No annual maintenance fees.
- Simple enterprise scalability and auto device discovery.
- Dual stream recording for optimal bandwidth usage.
- VESA mount is included to mount the server inconspicuously behind a monitor.
- A USB mouse and keyboard are included for local setup and control.
- Designed, assembled and tested in the U.S.A.
