

For Immediate Release

Digital Watchdog Expands Speaker Line

The new indoor SiteWatch speakers come in Wall-Mounted and In-Ceiling Housing Options.

DW DW-SWSPC30iAM (left) and DW-SWSPW30iAM(right) indoor speakers.

Cerritos, CA (March 27, 2025) – [Digital Watchdog \(DW\)](#), the industry leader in digital recorders, surveillance cameras, perimeter protection devices, system peripherals, related management software and cloud video services, introduces our new SiteWatch indoor speakers. Two-way communication solutions, the speakers include a built-in microphone and 30-watt output and can easily be integrated into existing or new video surveillance installations. They feature audio alerts for deterrence, public safety, and communication for improved daily operations.

These standalone, 30-watt, smart audio IP indoor speakers help deter crime by responding to real-time events with automated and manual voice alerts. The speakers have built-in

microphone and alarm input for two-way communication and integration with access control systems. The DW-SWSPW30iAM includes a mounting bracket for easy wall-mounting installation. The DW-SWSPC30iAM is ideal for applications looking for discrete audio solutions, with an in-ceiling installation that makes the speaker blend with the room's overall design.

With a built-in memory to support pre-recorded messages, the speakers are ideal for live two-way communications, voice paging, alerts and ambient music. The speakers are fully integrated with DW Spectrum and supported IP cameras and can easily integrate with SIP-supporting VoIP via open standards. The DW smart audio speakers are ideal, scalable, and flexible approaches to system design and come with DW's 2-year warranty.

"The SiteWatch series of perimeter protection solutions are critical members of a complete DW video security solution," said Mark Espenschied, Director of Marketing, DW. "These powerful and attractive additions to our speaker line are dynamic tools for crime deterrence and effective public communication."

Product Features:

- All-in-one IP speaker system
- Built-in microphone
- Compatible with IP cameras via DW Spectrum
- Compatible with VoIP devices (IP PBX, IP Phone) via SIP
- Built-in 30W amplifier
- Support pre-recorded messages, live responses, alarms and background music
